-Sreen Maltego

The screenshot displays the Maltego interface with a central graph titled 'New Graph (1)'. The graph shows a central entity 'www.epicode.it' connected to various other entities, including 'ip', 'dns', 'url', 'phonebook', and 'website'. The 'Entity Palette' on the left lists various entity types like 'Tracking Code', 'Website', 'SSL Certificate', 'IPQS Tag', and 'Phone Number'. The 'Overview' panel on the right shows a summary of the graph. The 'Detail View' panel on the right shows the properties of a selected entity, 'BuiltWith Relation maltego.builtwith.R ip'. The 'Output - Transform Output' window at the bottom shows the results of various transforms, including 'Transform To IP Addresses' and 'Transform To IP Address [DNS]'.
